So they will give us ESF-10 funds from their MA through a PRFA to pay for these activities?

All:

We need to put some numbers together to support USCG once we no longer have these services on-site:

USCG Support

The USCG has requested support should EPA's Mission be completed prior to the USCG/TGLO Vessel Recovery Mission. The USCG has indicated that it would like to request EPA assistance through a Pollution Removal Funding Authorization (PRFA) to provide the following support:

- Incident Command Post: Includes building, utilities, and internet (1 Logs Contractor, 1 EPA Logistics)
- IAP support: Includes 1 EPA Start Contractor (on-site) to assist USCG Planning Section Chief in the IAP development
- Response Manager Support: Includes 3 EPA START Contractor (on-site) for Data Entry/Report, 1 EPA START Contractor for Data Manager, and 1 EPA Data Manager.
